FEBRUARY.—The funeral of the late Dr.

Hollen, which took place this afternoon, was

very largely attended. The Town Council

was present as a body, with the corporation

officials, and a great concourse of citi-

zens followed the remains of the respected de-

ceased to the grave.

A PAROUSITY.—The Police

Commissioner, on Saturday last, Robert

Brown, of Point Tremore, while returning

from his work at Dr. Ostrander's, late at

night, and in order to reach home by a short

cut, took to the ice when near home

discovered to his dismay that he was rapidly

floating into the lake, being quite distance

from the shore and completely powerless.

Being possessed of sound lungs he made his

condition known, as he was heard by a

lady on the shore who gave the alarm, and

Mr. Cannon and others went to the rescue.

and the poor fellow—who was in a great

state of excitement—was taken from his

perilous situation, nearly a mile from shore.

A FABLE.—The New York Times in just

now printing a series of fables after the

style of the ancient and honorable Esop of

modern memory. No. 32 appeared in this

paper lately, and it runs thus: An Insur-

ance Agent happening to meet a Lion asked

him if he would insure his life. "No,"

replied the Monarch of the Forest, with a

recounting, "you know." This ap-

parently refers to the unhappy lion who was

fed and fed his damaged cheek with other

more penetrating portions. Moral.—There

is such a lion in the world as to place

of course the above is not local in the

application, but we have seen insurance

agents elsewhere who might have wished

to have as satisfactory an interview with

a lion as was above described.

Organ Recital and Sacred Concert.

The opening of the splendid new organ

supplied to the Bridge Street Methodist

Church by Messrs. S. R. Warren & Co.

of Montreal, took place last night, a large

audience being in attendance. At our read-

ers are generally aware, it is but a few

months ago that the determination to procure

an organ worthy of the church—was

arrived at. A Committee was appointed, and

so earnest and successful were they in the

discharge of their labors, that it was deter-

mined to proceed at once, and Messrs. Henry

Wishart, organist of the Church, and Mr.

Nathaniel Jones, who had filled that position

for a number of years, drew up, at the request

of the Committee, a specification of an organ,

the work of building the instrument was

contracted for, and has been faithfully per-

formed, was proved to a demonstration last

night. The specification upon which the

Never Give Up.

Never give up, brother, never give up!

Go back to the place where you were born

And every pleasure from which you've been

Work like a man

Do the best thing you can

That is the wisest and happiest plan!

Never give up, brother, never give up!

Think of the future, of glory and

Though the sun shines not now, yet it may very

So keep up a brave heart and tread down your

Soon may come light

Only struggle and strive, and do what is

Never give up, brother, never give up!

And your sorrows cease

Only rest in the Lord, and then all will

An official of one of the railroads entering

in Detroit was yesterday lost by a

man for a railroad pass to Grand Rapids.

The stranger entered the office with a big

case in his hand and a "woody" air. He

looked as if he had entered long after

an all night's wrestle with a bed dirt road, and

he had no sooner stood his case up in the

corner than he loudly inquired:

"Are you the free pass man?"

The official hesitated a little, and the stranger

announced his query by asking:

"Would you give a preacher a pass to

Grand Rapids?"

"Are you a preacher?"

"Kindly."

"You give your word that you are a

preacher, do you?"

"Not exactly," stammered the stranger.

"I don't say I'm regularly ordained."

"We can give passes to clergymen occa-

sionally, but we must know that they are

active preachers of the gospel."

"That hits me," cheerily replied the

old man rubbing his hands. "I calculate

I'd give more good than any other

one man in Antioch County."

"But you justified that you weren't a

preacher," said the official.

"Not a regular, 'Squire. I'm what you

might call an assistant to regular preachers."

"An action of a church, I'm sure," said

the official, "is a necessary part of the

process of ordination."

Town and Vicinity.

TOWN COUNCIL—A regular meeting of the Council will be held this evening.

THE MARKET—There was but little doing to-day, and there is no change in prices to report.

NEW DRESS—The *Globe* appears to-day in a new dress, which greatly improves the appearance of the paper.

REVIVAL—Special services being held nightly in the Kingston Road Methodist Church.

DEATH—Matters in police circles are dull. Only six persons occupied the cells during the past forty-eight hours, and but one of these was a prisoner.

VITAL STATISTICS—The numbers of births, marriages and deaths registered in Belleville during the month of March were: Births, 14; Marriages, 1; Deaths, 9.

FISH AND GAME—Several residents of Prince Edward propose to form themselves into a Society for the protection of fish and game. A meeting for the organization of a Society for that purpose will be held in the Town Hall, Pictou, on Friday next.

RAILWAY GUIDE—Messrs. Chisholm's Railway Guide for April is promptly to hand. It contains, as usual, all the time tables of the principal railroads in correct and up-to-date, besides a great deal of other valuable information.

POLICE COURT—The sitting of this court was held this morning before Mr. A. L. Smith, J.P. The only prisoner was a vagrant named Elizabeth Delong, who had broken several windows in a first-class car at the Grand Trunk Station yesterday. She was sent up for 60 days, in default of payment of a fine of \$5.

UDDERMAN MILK—An interesting case was considered before a full bench of magistrates in South Margate a few days ago. The complaint was that a patron of a Cheese Factory had delivered milk in which a cat had been drowned. A portion of the magistrates agreed upon a conviction, but the defendant gave notice of appeal.

THE ROADS—The state of the roads is represented as being good as yet, although an early disappearance of the snow, and the temperature having risen since Saturday, and rain having fallen this morning. Unless more snow falls, the prospect of an early break up of the ice in the river is good.

"STAGGERING" DEATH—Several instances of unseasonable cold have been made on the market, but so far as we have been able to learn, no serious have been made here. The farmers in this vicinity must either be more honest than those who reside near Kingston, or perhaps less attention is paid to the inspection of meat here.

PRACTICAL JOKE—There was a large amount of practical joking on the streets on Saturday night, which was privileged by the day. Various old methods of "fooling" were resorted to, but the success of those who resorted to them was not at all encouraging. Something new in that line will have to be invented.

ALBERT COLLEGE—The term about to close in Albert College has, we are glad to learn, been a very successful one. Tomorrow night the competition for the Governor's Prize, in which the Senior Freshmen will engage, will take place in the College Chapel at 7:30, under Wednesday evening the Matriculation Examination for which an interesting programme has been prepared, will take place. An admission fee of 10 cents will be charged.

A VISIT TO THE COLLEGE—On Thursday last, Prof. Goldwin Smith, accompanied by Mr. T. C. Wallbridge, paid a short visit to Albert College, and after going over the entire premises, seemed to be highly pleased with the institution and the work of the faculty. Great improvements have been made in the interior of the College buildings of late, and Dr. Jacques, the able and indefatigable President, will not, apparently, be satisfied until the College is used by the students with mutual efficiency, laboring in the month of April with a cheery brightness. Morning passed, afternoon came, and the day was not without its interest. Finally the day was numbered with the past, and yet the expected dissolution of all things terrestrial failed to take place. In the afternoon we were invited to supper as usual, unchanged, and apparently not likely to change for a time at least. We advise the "honest" "prophets," to devote their healthy minds to saving, or some other healthy

Excuse hereafter, the effect of which will be to tone down their efforts of imagination, and drive their thoughts into a more useful channel. They will thus get rid of morbid imaginations, and perhaps, refrain from frightening themselves and other numerous persons by the utterance of prophecies which probably have their origin in a diseased stomach.

ANSWER TO ENIGMA.—No answers have been received to the enigma published on Saturday, nor are any expected, for doubtless the enigma is too difficult for the cleverness to themselves. However, in order that all may be wise, we give the solution, which is as follows:

1. Poor.
2. Rich.
3. Poor.
4. Rich.
5. Poor.
6. Rich.
7. Poor.
8. Rich.
9. Poor.
10. Rich.

\$20,000 PURCHASED PAPER DISCOVERED BY LONGING TO A FIRM LATELY BECOME INSOLVENT.

The Montreal Star of the 1st says:

The astounding fact has been disclosed that paper to a large amount, nearly \$20,000, has been discovered by a firm lately become insolvent. The paper was found in the hands of a man who was a partner in the firm. One of the partners, Mr. Gay, has acknowledged that he alone is the guilty party. He partners have no knowledge of the fact until after the perpetration of the crime. Some of the firm, and the remainder is still in the hands of the banks. It is probable the account will be of some value to the police authorities by the time this reaches the eyes of our readers.

A meeting of the creditors was held at the office of Mr. Evans this afternoon, and resolutions were passed relative to the proceedings against the self-confessed forger. It is probable the account will be of some value to the police authorities by the time this reaches the eyes of our readers.

Information has been received that the guilty party has left for the United States.

GEN. SHERMAN AT NEW YORK.

A TREACHEROUS GARRISON.

THE CURRENCY BILL.

NEW YORK, April 3.—Gen. Sherman and Secretary of War Fish yesterday visited Fort Hamilton, and were received with official honors.

A Brownsville, Texas, despatch, says, at five o'clock on Sunday morning, General Diaz presented himself with his army of about one thousand men to attack Matamoros. General De La Barra, in command of the garrison, sent out some 300 men under General Toledo, to meet the invaders. The two armies met, whereupon the city, and came back to the ranks of Diaz. The National Guard, some thousand strong, in the city, and the Army refused to fire a single shot when ordered to do so by Diaz. On this, all the Government troops turned over, except the ninth cavalry, which held firm. After some fighting, General Diaz's army, to consider the possibility of establishing in place of the existing system of Government. For, after the model of those which are now working so successfully in the mother country.

In the course of our day, we have visited the Institution for the Deaf and Dumb, and have more than ordinary pleasure in testifying to the satisfaction we have experienced in doing so, and to the courteous reception and the interest which we have been accorded to by the officials of that Institution. Our examination extended into all its departments. The interior economy has been well conducted, and is evidently carried on in a most orderly and systematic manner. The management of the Institution is in the hands of a man of the most perfect of the high position which the Institution occupies in the world. We venture to express the opinion that for the more effective suppression and detection of crime, it will devolve upon the Government to take as its duty, to consider the possibility of establishing in place of the existing system of Government. For, after the model of those which are now working so successfully in the mother country.

We have to-day visited the Jail, and noted the cleanly and efficient manner in which it is kept. We regret to find among its inmates many young men, whose time is passed in idleness. We would recommend that some kind of work, either at hand breaking or on the house grounds.

THE VAN ATRECHAS.

The Van Atrechas, a proud, rich old

family, who took a certain degree of pride

in New York life, and a certain amount of

social position in their family history, had

invited Rose to spend a month or two with

them; and she was therefore moving as a

star in a very high circle.

Now, these Van Atrechas were one of

those cold, glittering, inaccessible families

in Mrs. Follingsbee's fashionable Al-

bion, which she would spend no expense

to reach, if possible. It was one of the

families for whose sake she had Mrs. John

Seymour under her roof; and the address

of Rose, who was well acquainted with

Mrs. Seymour's most intimate friends, was

an unbroken streak of good luck; because

the address was the necessary of calling

on Rose, of taking her out to drive in the

park, and of making a party on her account,

from which, of course, the Van Atrechas

could not stay away.

It will be seen here that our friend, Mrs.

Follingsbee, has a peculiar, difficult, and

slippery path to follow.

The Van Atrechas were good old Dutch

Reformed Christians, unquestioning be-

lievers in the Bible and religion, and the

Ten Commandments had been borned in

on the great stocky beefsteaks and sin-

gle of their old Dutch ancestors. There was

a certain English and Dutch strain in the

family, which rendered them utterly

hypocrites, and they were the most

stupid of the stupid. There was a certain

etherealized sense of holiness which ob-

tained in the interior circles of Follingsbee

family, which rendered them utterly

TRADE MARK NOTICE.

This is to intimate that the words, "Syrup
of Red Spruce Gum" constitute our Trade
Mark, which is duly recorded according to law
both at Ottawa and Washington. Any per-
son infringing the same, or imitating the
wrapper, which is also registered, will be
prosecuted forthwith, and without further
notice.

J. S.—Any one offering for sale, not being
the Manufacturer, an article for coughs and
colds bearing the above Trade Mark, is
equally liable with the manufacturer.

(See Trade Mark Act of 1868).

As soon as he comes in possession of his
rights he will purchase or rent a small, light
constructed bamboo house, which with a
liberal supply of convenient and a few arti-
cles for culinary purposes, will form a
residence, which is kept all neat and clean
as a house's tooth, the wife doing, how-
ever, her own housework, washing and
ironing her lord's clothes, which are kept
in perfect order. She is very domestic,
seldom or never seen upon the street; more
tender and faithful wives never existed;
in fact they dare not be otherwise, for the
husband would chastise them severely. The
husband seldom takes a meal at home, the
wife subsists chiefly upon rice, and the cost
of maintaining her, together with her mar-
riage, will not exceed \$30 per year.

A WIFE.

(From the Overseas Journal.)

Some years ago, while tarrying at
Shanghai and Hong Kong, the writer be-
came acquainted with Mr. King, head of
the highly respectable firm of Messrs. King
& Co., doing business at Shanghai.

Mr. King had recently returned from a
visit to the United States, where he had
formed an alliance with a blooming young
lady, daughter of a Presbyterian clergyman
nearly as young as himself, who, after the
usual ceremony had been performed, accom-
panied her lord to the Celestial Empire.

On their way they stopped for a few days
at Hong Kong. After settling themselves in
comfortable quarters, the couple were
visited by a rich mandarin. The latter re-
quested the lady very attentively, and seem-
ed to dwell with delight upon her accom-
plishments.

When Mrs. King at length left the apart-
ment, he said to her husband, "I have been
English (worse than broken Chinese) to the
point of that lady—wife of yours?"

"Oh," replied the husband, laughing at
the singular error of his visitor, "10,000.
This, the merchant thought, would appear
to the Chinese a high figure, but he was
mistaken. "Well," said the mandarin,
taking out his book with an air of business,
"how many give you for it?"

"I have only \$10,000," replied the husband.
"It is difficult to say whether
you are more stupid than most, but the
very grave and solemn air of the Chi-
nese convinced him that he was in sober
earnest, and he was compelled, therefore,
to refuse the offer with as much placidity
as he could assume. The mandarin, how-
ever, continued to press the subject, and
gave you \$20,000," said he, "you take me!"

Mr. King, who had no previous notion
or thought of the commercial value of the
commodity which he had taken with him
on his business tour, was compelled at
length to inform his visitor that Americans
were not in the habit of selling their wives
after they had done in p. session of them; an
assertion which the Chinaman was slow
to believe.

It was Mr. King's custom, as well as
of every other commercial house doing busi-
ness at Shanghai, to have their clerks, with
them daily, leaving their Chinese wives
behind. Soon after my arrival at Shang-
hai, I was invited to dine with Mr. King.

There were a few gentlemen and seven-
teen of his clerks seated at the table. They
were all well dressed and quite respect-
able young men; a stranger would imagine
them to be gentlemen. While seated at
the table, Mr. King related to me the
following narrative with great glee, laugh-
ing at his young and pretty wife, saying
that he had recently discovered that she
as he had been offered \$20,000 for her; a
very high figure as wives were selling at
that time for the average price paid by
the clerks for an ordinary Chinese house-
keeper's daughter was about \$150, the price
being agreed upon with the parents before
the young people see each other, the bargain
was at once consummated. If the
husband paid more to be so fortunate, the
beautiful parents might receive \$50
more as cash, or a present.

As soon as he comes in possession of his
rights he will purchase or rent a small, light
constructed bamboo house, which with a
liberal supply of convenient and a few arti-
cles for culinary purposes, will form a
residence, which is kept all neat and clean
as a house's tooth, the wife doing, how-
ever, her own housework, washing and
ironing her lord's clothes, which are kept
in perfect order. She is very domestic,
seldom or never seen upon the street; more
tender and faithful wives never existed;
in fact they dare not be otherwise, for the
husband would chastise them severely. The
husband seldom takes a meal at home, the
wife subsists chiefly upon rice, and the cost
of maintaining her, together with her mar-
riage, will not exceed \$30 per year.

Mr. King, being a conscientious and
energetic body, resolved to use every effort to
be able to break up the infamous trade
in Chinese women; but being ignorant of
the manner and customs of the people in
that distant country, and having no fol-
lowers—her husband finding indifferent fol-
lows—accomplishing her meritorious object.
As a last resort, she issued an edict requir-
ing every one of her husband's clerks to
marry forthwith, and that if they refused to
do so, they would not be allowed to
dine at the same table with her. The result
was easily imagined, for on the follow-
ing day not one of the clerks made his
appearance at the allotted place of business,
which pleased Mr. King in an unfeigned
position, blocking the wheels of his immense
business.

The indiscretion of his wife came near
causing him much trouble and unnecessary
expense; and, strange as it may appear, the
clerks had the sympathy of the whole com-
munity of Shanghai; and however humiliat-
ing it might have been to Mr. King, he
was obliged to rescind his edict, and when
the writer left Shanghai the wheels of busi-
ness were again in motion and everything
went on as usual.

Beau Brummell.

Lord William Pitt Leveson, in his "Col-
lection I have not," just published, has
some very interesting facts relating to the
famous Beau Brummell—Brummell, the
celebrated writer of the "Pamphlet," and
termed by the ignorant the king of the
dandies; with due submission, I beg to
correct the error of his history. He was
not a dandy, but a man of sense and
taste. The term dandyism never could
be applied with justice to him; it was
applied to a pretension to couple his name
with such an offensive distinction. Of all
my acquaintances, he was the quietest,
placidest and most unassuming, and those
who remember him in his prime days will
bear testimony to the truth of this
assertion; it was the only thing in his
life of which he was proud, and which he
valued, and a right assertion of his
modesty and his sense of propriety in
his undisciplined taste. He was a man of
exquisite taste, and his sense of propriety
was not less than his sense of propriety.

Good Failures.

The following are some of the principal causes of failures of seed:

1. Some cultivators, through ignorance or forgetfulness of the fact that the seed of a garden, being natives of various soils and climates, require peculiar managements, deposit their seeds in the ground at an improper season. The early and most hardy species and varieties will not be planted until the ground can be brought into good condition, as some species of plants that in advanced stages of growth will stand a hard winter, are often cut off by a very slight frost while young, especially if exposed to the sun after a frosty night.

2. Some species of seeds, such as bean, beet, cabbage, lettuce, radish, turnip, &c., being from their nature not so very quickly, are often destroyed while germinating through verminousness of the weather, and some are liable to be devoured by insects in 48 hours after they are sown, and before a plant is seen above the ground, unless a suitable remedy is applied in time to destroy the insects.

3. Some species, as carrot, celery, leek, onion, parsley, parsnip, spinach, &c., being naturally of tardy growth, taking (in uncultivated seasons) from two to three or four weeks

ment was carried by a vote of 34 to 24.

construction of the Pacific Railway be
formed the principal condition upon
which the British Columbia interest in the Canadian
Confederation, every reasonable effort should be
made to satisfy the people of that Province
that their interests would be secured, and that
the House should not assent to any bill which
would be a step towards the construction of
that great national arterial railway, which is
essential to the material advancement of all
the Provinces of the Dominion, until it has been
well as to the early consolidation of public works
and national union among the whole people."

Daily Intelligence.

FRIDAY, APRIL 7, 1876.

Town and Vicinity.

STREET.—The reunion of No. 1 Company of the 49th was a very pleasant affair. We will furnish a report of the same.

CHURCH.—Business in the Court of Assizes was concluding on this morning. The concluding portion of our report is crowded out to-day.

ARRIVED.—The steamship *Circassian*, from Dr. Stewart of Belleville, and son, took passage for Great Britain, arrived at Liverpool, yesterday the 6th inst.

FIRED VESSEL.—The first vessel to reach Oswego this year is the schooner *E. R. Hart*, which lay up at Charlotte all winter with a cargo of wheat, and arrived at Oswego on Wednesday afternoon.

THE BAY.—The ice is reported to be getting very heavy, and floating fast, being covered with water to a considerable depth from the Ferry Point for about two miles eastward. A good strong westerly breeze would make short work of it.

THE WEATHER.—It was one of the "enjoyment" of another snow storm, Yarn's prediction having once more turned out correct. The streets are covered with well settled snow, which, with the heavy snowfall, renders the day one of the most unpleasant of the season.

LABORERS' CHALLENGE.—At the late meeting of the St. Thomas Town Council, a letter was read from Bishop John, in which it is the intention of the M. E. Church to establish in that town a Ladies' College, to cost from \$15,000 to \$20,000, provided a satisfactory bonus be granted to the enterprise.

Exhibition buildings and the lines of street cars in the city, it contains all the information that could be desired. Published monthly by the National Railway Publication Company, Philadelphia, at the very low price of twenty-five cents.

NEW DOMINION MONTHLY for April contains a portrait of Gen. McDougal, the pioneer Missionary in the North-West, who recently perished in a fearful snow storm on the prairie, accompanied by sketches of his life and some interesting letters from his lately received by Hon. James Ferrier, of Montreal. The various departments of the Magazine are replete, and its printing and editing are of the highest quality. Published by John Douglas & Son, Montreal, at \$1.50 a year.

MEETING OF DEAF MUTES.—The *Mail* of to-day says: "Dr. Palmer, Principal of the Deaf and Dumb Institution, of Belleville, held a meeting of the deaf mutes of Toronto in one of the rooms of Shaftesbury Hall last evening. There were about 100 persons of that class present, including both sexes. The doctor explained that he had called them together for the purpose of suggesting the formation of a Deaf Mute's Mutual Improvement Association, similar to those in London, New York, Chicago, and other cities. All present seemed to be heartily approving of the suggestion, and a Committee was appointed, consisting of Messrs. William Apple, (printer); Richard Slater, (printer); Chas. Howe, (book-binder); George Broomfield, (shoemaker); and Andrew Clark, (tailor); to meet with Dr. Palmer next week about 10 o'clock, and they are to meet at the same place this evening to organize the Association and elect their officers. There are about fifty deaf-mutes in Toronto, quite enough to form such an Association as one so proposed must be successful. A vote of thanks was tendered to Dr. Palmer last evening for his kindness in paying the deaf-mutes of the city his present visit."

Police Court.

FRIDAY, APRIL 7.

LAWSON.

Anson Wood was convicted of stealing a buffalo robe from John S. Lloyd, and was sentenced to two months' imprisonment.

FROST.

William Orr, charged with having committed perjury, did not appear.

RAILWAY TRAFFIC.

The Grand Trunk Railway traffic reports for the week ending March 27th were:

Passengers, express, freight 1876 1875

Freight and live stock 118,845 105,403

Total 307,690 285,413

Corresponding week, 1875 1876

Increase, 1876 1875

The increase for the first twelve weeks of this year, as compared with 1875, was \$19,933.

DUNN TO DEATH.—A telegram from Mono Road, Co. Fed. April 4, says:

"This morning about five o'clock the house of Christopher Ward, near this place, was consumed by fire, together with his wife and the contents of the house. Ward had a large family. There are suspicions of foul play. An inquest will be held to-morrow by Dr. Allison."

NOT GUILTY.—An Ottawa telegram says:

"The case of Mrs. M. P. P., charged with an indecent assault upon her little girl, came before the Assize Court to-day. The evidence was substantially the same as that given at the preliminary examination. The jury retired at four o'clock, and returned at five o'clock with a verdict of Not Guilty. The court room was crowded, and the result was received with cheer."

AN OUTRAGE.—An Ottawa despatch says:

"Last night a shameful outrage was committed at Hull. Some parties having effected an entrance into the office of *E. L. de Hull*, of which Mederic Lanctot is proprietor, scattered the type in the street, and the back yard and the newspaper. The printer and a number of Corporation were next burned in the street, and the forms, which were ready to go to press, were carried off loaded. The press is in the hands of a plant which caused injury. The damage is estimated at \$1,500."MEMBERS LIE.—The *Globe's* Ottawa correspondent says:

"A telegram to-day informing that his father was so much worse as to require his immediate attendance at Appleton, N. B. The doctor accordingly left at noon. Sir John A. Macdonald is still unable to leave the house. Mr. Scatcherd has been ill, and prevented from attending to his duties. The doctor, Dr. David Thompson, also, is still absent from the same cause. Senator Perry, of Oshawa, lying in a dangerous state, and not expected to recover."

HOW THE CARBON WAS CUT.—A Cape Breton paper says that recent developments go far to prove that the late cutting of the cable was a matter of necessity to the crew of the vessel which did it. The anchor of a fishing vessel fouled the line and received two turns of it round one of the flukes. The only alternative was either to cut the cable, or to risk the vessel's cable, or to risk the vessel's cable. The plan was adopted because the captain had no information that he would be remunerated for the loss of his anchor. One of the crew of the vessel, who had information to a representative of the Direct Cable Co., in Cape Breton lately.

Darker, darker, grows the shade;

Sweet shadows ever shade;

Mingling sorrow, rest, and pain,

Further, further, grows the shade;

Dimming off from mortal sight;

His radiant laurels fading;

Paling all its glories bright;

Fainter, fainter, grows the thought

Of each human fret and care;

One grief after one has wrought;

One grief after one has wrought;

Nearer, nearer, hand in hand,

Close, closer, comes the Cross;

Shining on the darkened air;

As we kneel in sorrowing, there!

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

SATURDAY, APRIL 9.

Mr. Mackenzie moved that the House

resolve itself into Committee of the Whole

to consider the following resolution:—"That it

is expedient to authorize the Government to

make a temporary disposition of the iron

rails as they are removed from the Govern-

ment railways by leasing them to companies

constructing railways which may be regarded

as feeder to the Government lines, such

rails to be returned, weight for weight, to

the Government at the junction of each line

when taken up."—Carried.

On motion of Mr. Holton the House

resolved itself into Committee of the Whole

to consider the bill to incorporate the

Atlantic and Pacific Fire and Marine In-

surance Company.

The bill passed through Committee, was

reported, read a third time, and passed.

Mr. Cartwright moved the House into

Committee of Supply on the Supplementary

Estimates, in doing which he explained the

importance of the bill, and submitted a statement

of the receipts and expenditure on the

Consolidated Fund up to the 1st of April of

the present year. This was the only

statement, and would not, exactly

correct, perhaps, be a statement of the

to be brought down hereafter. According to

this statement the total receipts to date

were \$71,244,46, and the total ex-

penditure \$10,460,823, the latter amount in-

cluding the sum paid for railways. Of

course the revenue included a certain amount

which had been anticipated, but he did not

think that was as large as had been sup-

posed. Mr. KIRKPATRICK moved in amend-

ment, seconded by Mr. BOWELL, "That all

the bills which are now before the House

be referred to a committee of the House

to be appointed by the House, and that

the committee be authorized to report

thereon on or before the 15th day of May

next."—Carried.

Mr. BOWELL thought it time that the

House took the matter into its own hands,

and suggested that a committee be appointed

to inquire into the matter, and to report

thereon on or before the 15th day of May

next. Mr. CARTWRIGHT said that he

thought that the House should be

authorized to appoint a committee to

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

OTTAWA, April 10.

The Speaker took the chair at 1:45. The House presented the report of the Committee on Immigration and Colonization. Mr. Cameron, Carleton, presented the second report of the Library Committee. Hon. Mr. Mackenzie complained that he had not received a notice to attend the meeting at which the report was to be read. Several other members made some complaint. After some discussion the report was withdrawn.

Mr. Mackenzie brought down a number of returns, including the report of the Committee on Immigration and Colonization. The Colonial Office in reference to the exercise of the prerogative of the Crown in the Dominion of Wales. The report of the Printing Committee provided for the printing of the evidence taken before the Committee on Agricultural Industries.

Mr. Ross replied to a recommendation that a part of the evidence should be printed. The resolution of which Mr. Laird had given notice, to the effect that it is expedient to make provision for the Dominion of Wales, withdrawn from the general provision of the Dominion Land Act, and that the same should be withdrawn.

Mr. Mackenzie then moved the House into Committee to consider the following resolution: "That it is expedient to authorize the Government to make temporary deposits of the iron rails, as they are removed from the Government railways, to be used for the purpose of constructing railways which may be regarded as feasible to the Government, and which shall be returned, with any weight to the Government stores at the junction of each line where the same are deposited."

Mr. Hurd said that, before the Speaker took the chair, he wished to ask if the rails were to be returned. If they were, he did not see why they should be removed. This kind of rails would never be returned, and in the manner would never be returned.

Mr. Mitchell approved of the policy of the Government.

The motion was carried, and the House went into Committee and reported the resolution.

Mr. Bowell then moved the following amendment: "That the resolution be not adopted, but be referred to a select committee of the House for the purpose of ascertaining the same, so as to provide that the rails removed from the Government railways shall be sold to the highest bidder, for no more than the value of the same, and that the same shall be returned, with any weight to the Government stores at the junction of each line where the same are deposited."

Mr. John A. Macdonald said it was the intention of the Government to sell the rails for which the Government had no further use to the highest bidder, just as the Government should buy in the open market. The amendment was affirmed by Mr. Gladstone. It was also a principle that Parliament should have control of every specific transaction, but the resolution proposed to give the Government a general power to dispose of the rails.

Mr. Workman said if they offered those rails for sale in the present depression of the market they would get very little for them. Mr. Holton said he would vote for the resolution.

Mr. Wallace said if the rails were fit for use, they should be used where they were. These rails were built with local money, and in Ontario all local roads were built with local funds.

Mr. Mackenzie said the rails which had been applied for were the Richmond branch line, the branch line going towards Fredericton, and several small lines, some of which were seven miles long.

The House then divided on Mr. Bowell's motion, which was lost—yeas 37, nays 87, majority for the Government, 60.

A number of items were reported in, and the House rose at 10:40, the Premier stating that prorogation will take place on Wednesday.

State of Crime in Ireland.

A letter from the Dublin correspondent of the London Times, dated of March 13, gives a summary of the crime in Ireland, before the recent Irish Act, containing many very startling facts concerning the maladministration of justice that has prevailed. Although an unusually large number of capital offences have been committed, there has been a conviction in a single instance.

Two correspondent cited a number of cases, all of them of an aggravated nature. In one case two men named Burke, father and son, were tried for the murder of a man named Scollan, and were acquitted. In another case a man named Smith was tried for the murder of a man named Smith, and was acquitted. In a third case a man named Smith was tried for the murder of a man named Smith, and was acquitted.

At a session of his lands escaped. At Mullingar a man who had murdered a man named Michael Moran was acquitted. At Tallaght, a man named Smith was tried for the murder of a man named Smith, and was acquitted. At Dublin, a man named Smith was tried for the murder of a man named Smith, and was acquitted.

On a VICTORIA TOUR.—On Thursday morning the Mayor and a delegation of the City Council of Toronto are to start on a tour of visit to Ottawa, Montreal, and other cities. The tour is for the purpose of promoting the interests of the city of Toronto, and of the province of Ontario.

A LOUS WALK.—A Toronto reporter writes: "The Toronto City Council of England, on Saturday evening, the 10th inst., arrived in the Hudson Bay country to Toronto, a distance of five hundred miles, in twenty-two days, having to do a hole in the most of the way. The thermometer registered forty degrees below zero."

PRINTING COMMITTEE.—The following is from the Ottawa correspondence of the Mail: "There was considerable discussion to-day in the Printing Committee on the report of the Committee on the Hudson Bay country to Toronto. The Chairman, Mr. Ross, of Middlesex, said only a few papers printed, but Mr. Bowell said that the report was important, and should be printed, and his view was prevailed. The same Committee refused to print the answer sent to the Agricultural Committee in the same report, and the Chairman, which embodied much valuable information. They contain too much information for the Free Trade majority of the Committee."

THE RAILWAY BY-LAW.

Voting on the By-law granting a bonus of \$30,000 to the Belleville and North Hastings Railway, took place in the County of Hastings yesterday, and although full returns have not yet been received, the result of the vote by-law by a majority of from 800 to 1,000 votes is assured. The vote in the front township is a surprise to both friends and opponents of the measure, and shows that the farmers of the southern township are disposed to assist the less favored settlers in the northern part of the county, by doing so, however, they largely benefit themselves incidentally, as convicts would not do doubt go.

The question was strong, and misrepresentation was not wanting, but the bona fides of the promoters were so apparent that the opposition of the measure failed of its object. The returns, so far as received, are as follows:—

This leaves a majority of 80 for the By-law, with the back-township votes, which will increase it to a large extent.

We heartily congratulate the promoters on this result, to which the indomitable energy, pluck and ability of Mr. Lloyd have largely contributed. Coming here as an almost untried man, this gentleman has, by his ability and perseverance, succeeded in acquiring a large amount of popularity both in town and county, and by mingling with and consulting the leading men, he has succeeded in getting such assistance from the municipalities as renders the completion of the Railway and Smelting Works a certainty. These great enterprises will now be pushed forward with the greatest possible despatch, and their completion within the stipulated time may be regarded as beyond doubt.

CAMPBELL DIVORCE CASE.—The Campbell Divorce case presented light report yesterday afternoon. The report states that all the material allegations in the petition of Mr. Campbell are proved, and the Committee recommended that the matter be laid over until next session for final decision.

RETURN TO PUBLIC LIFE.—It is announced that it is not improbable that the Hon. W. P. Howland may return to public life in an independent capacity. His friends contend that his great knowledge of the financial necessities of the country would make his presence in Parliament at the present juncture of great value.

ON A VICTORIA TOUR.—On Thursday morning the Mayor and a delegation of the City Council of Toronto are to start on a tour of visit to Ottawa, Montreal, and other cities. The tour is for the purpose of promoting the interests of the city of Toronto, and of the province of Ontario.

THE PENITENTIARIES OF THE DOMINION.

Nova Condensed.

In the report of the Minister of Justice, recently presented to Parliament, are full details concerning the Penitentiaries of Kingston, St. Vincent de Paul, St. John, Halifax, and Montreal. The report also contains a full account of the Penitentiaries in British Columbia.

Mr. Molyneux, the Inspector, in his report to the Department, states that the gross cost for maintaining the Penitentiaries in 1875 was \$101,323.18, and in the same period the earnings of the convicts amounted to \$100,999.00, or \$324.18 per head on the average number of 770. The net cost of the Penitentiaries for the year ending the value of the convicts' labor, amounted to \$30,323.80, or \$113.31 per head.

The Kingston Penitentiary on the 31st December last contained 1,000 males and 100 females, a total of 1,100 convicts. During the year there were three escapes, and 30 more convicts were received from Ontario than during the previous year.

The average number of convicts during the year was 510. The average value of the labor performed by each convict was \$140.60, and the average cost of maintenance per head was \$108.67, so that the cost to the country for each convict was \$22.16. As compared with convict prisons in England and the United States, these figures are favorable. In England prisoners the average cost of each convict was \$107.10, in Auburn State Prison \$104.91, in Illinois State Penitentiary, \$104.70, and in Massachusetts State Prison \$117.80.

The Central Prison at Toronto, the cost of each prisoner was \$112 per annum, and in the case of the prisoners in the White House, the cost was \$4.00 higher than the cost of maintenance in the Kingston Penitentiary. Other details are given, which show that the Institution is well and carefully managed by William Crofton.

Rockwood Asylum, contained, on Dec. 31st, 378 patients, of whom 207 were males and 171 females. Their average cost per head per annum was \$118, which places Rockwood in the proud position of being the most economically managed institution of the kind on the continent.

St. Vincent de Paul Penitentiary presents a marked contrast to the above Institutions, the health of the Warden having been so poor for two or three years that the hospital had become a permanent institution. A new Warden was appointed in December last, and an improvement is noted since that time. This institution contains accommodation for only 120 convicts, but the number of convicts within its walls during the year ending June 30th, 1875, was 143. The expenditure during 1875 was \$37,443.80, or an average for each prisoner of \$386.12. The receipts from all sources only amounted to \$201.12.

In the St. John Penitentiary the average number of prisoners was 83. The average cost of each convict was \$247.93. Halifax Penitentiary contained 62 prisoners on the 31st, the average cost of each of whom was \$271.

Manitoba Penitentiary had 17 convicts on the above date. The value of their labor was \$2,418. The cost of their maintenance was \$25,000, which included the treatment of 65 prisoners who died.

In British Columbia a Penitentiary is being erected; unsuitable the convicts are maintained at a cost of 75c. per head per day.

STUDY OF MONDAY.—The Mail says in its issue of Monday:—"Yesterday Mr. Potts intimated to the official members of the Metropolitan church that he should next Wednesday evening submit to the approval of the vestry a resolution passed by his parishioners to do away with Sunday funerals with the exception of those which are absolutely necessary. In the latter case no display is to be made, and the funeral is to be attended only by intimate friends of the deceased; also, that in view of the distance of the cemeteries, the services are to be held at the residences and not at the grave as heretofore."

A Triumph of Medical Art. You, a triumph we call it, when medicine can be so "Bred up" as to be pleasant to take and yet accomplish the object intended. Such a medicine is Dr. Pierce's "Purgative Pills," which will cure all the ailments of the human system, and will be found in the hands of all the great medical men of the world.

A SAD END.—William Hudson, son of Hudson, the "Railway King," has come to a sad end. On Sunday, the 10th inst., he was found dead on the line at Victoria Station, a train from the city was coming, and he was on the tracks, and placed his head in advance of the approaching engine wheel. Several eye-witnesses at the inquest having sworn to the fact, evidence by the brother of the deceased, who was known to him well as given to the coroner, and also as to the regularity of his habits and the uprightness of his character. At the same time, it was remarked that he suffered at times from mental depression, and one witness declared that Mr. Hudson was previous to his death, had been found in his bed from a dose of chloral.

The death of Mr. Hudson was a great loss to the city of Toronto, and to the province of Ontario. He was a man of great ability and energy, and his death was a great calamity to the city and to the province.

THE DEATH OF A. T. STEWART.—The telegraph announced yesterday afternoon the death of Alexander T. Stewart, New York's great merchant. Over forty years he had served in the commercial metropolis of the Union from Baltimore County, Antioch, Ireland, and elsewhere. He was a school teacher, and his life was a school in itself. He was a man of great ability and energy, and his death was a great calamity to the city and to the province.

He was a man of great ability and energy, and his death was a great calamity to the city and to the province. He was a man of great ability and energy, and his death was a great calamity to the city and to the province.

Decline of British Free Trade.

(From the Chicago Journal of Commerce.)

When England began to agitate in favor

of removing the fetters from commerce, as

her progress was hampered by her newly

proposed policy, her manufacturing industry

had been developed and established by a

system of protection the most rigid, the

most unwavering, the most comprehensive

the world had ever seen. It was not until

the year 1846, when the Corn Laws were

abolished, that the first step was taken

towards the free trade system. Since that

time, the policy has been gradually

extended to all other branches of

commerce, and the result has been a

decline in the position of the British

manufacturing industry. The result has

WEDNESDAY, APRIL 12, 1876.

Town and Vicinity.

ARRIVED OUT—The Steamship Polytechnic
arrived out yesterday.

OPENING—The ice on the bay is giving
way rapidly, the channel being open for a
considerable distance this morning.

THE CRUISE—There was only one more
boat last night, and but three crews
lodged in the cells.

IMMIGRANT CHILDREN—Miss McPherson
leaves England with a party of children in
the *Strathmore* on the 27th inst.

NEW CURB—It will be seen by the
advertisement that tenders are asked for the
erection of a new Wesleyan Church in
Trenton.

RAILWAY BY-LAW—Some additional re-
turns have been received, which slightly
change the majority for the By-law.
When the returns are complete we will
publish them in full.

QUADRILLE ASSEMBLY—The Society of
the Sons of St. Patrick will hold a quadrille
assembly in the Town Hall on the night of
Wednesday next, 16th inst. Nix's band
will be in attendance.

THE AUDITORS—The Town Auditors
have almost completed their labors, in
which they have been busily engaged for
some weeks past. It is not improbable
that their report will be ready for presen-
tation to the Council at its next meeting.

THE FERRY—A year ago to-day the
Ferry Boat connected with the regular
trip. The ice is still unbroken, and
without a high westerly wind, a week will
probably elapse before the opening of the
Bay this season.

YACHT RACE—The New York Yacht
Club has accepted the challenge of Henry
Gifford to sail the *Countess of Dufferin*,
now building at Colborne, for the Queen's
cup, on twenty-five points, by the 1st of
May. The name of the competing
yacht will be sent to the Royal Canadian
Yacht Club here shortly.

ELIMB—An exchange informs us that
"before the close of the present winter
there will be only five more eclipses of the
sun visible in Canada, and but one of them
(July, 1878) will be total." It is no doubt a
serious matter to be deplored by the un-
fortunate of eclipses, but then, if our learned
contemporary's statement is as correct
as Vennor's predictions, there will be no-
thing to do but "grin and bear it."

FOUND—The watch belonging to Mr.
Mullhous, of Kingston, which was stolen
from his room in the Dominion House on
Saturday morning last, was found yester-
day in an unoccupied room on the third
floor of the same house. Whether the
thief had been visited by some prickers
of conscience, or whether the whole mat-
ter is a practical joke, is present at all
terms. The article is returned to its owner,
and is rendered more mysterious by the
fact that this most recent development.

WATER AS IMPROVEMENT—A contem-
porary writer who has evidently, to judge
from the tone of his remarks, found the
umbrella an inefficient weapon of
offence, thus suggests an improvement
in that useful but insecure class of
portable property. He tells that the
present generation has seen the smooth-
bore musket succeeded by the breech load-
ing rifle, and the old-fashioned 62-pounder
made obsolete by the introduction of the
"Woolwich iron." The revolver, he says,
has supplanted the percussion cap, and the
naval torpedo has all been invented during
the present century, but the umbrella
remains precisely the same uncertain and
inefficient weapon that it was when first
adopted. It is a satisfactory fact, the
writer says, that it is used for purposes of
offence or defence, it is equally unsatisfactory.

NARROW ESCAPE—On Tuesday after-
noon, whilst Messrs. S. J. Ball and
Frederick Ford were walking on the Grand
Junction wharf, their attention was at-
tracted by a loud scream from a female
in distress. Hurrying forward to the end of
that short distance from the end of the
dock, two young women had broken
through the ice, and that they were in an
exceedingly dangerous situation, the water
being deep and their struggles to extricate
themselves unavailing. Messrs. Ball and
Ford at once descended to the ice, which
was very rotten and unsafe, giving way
under the former gentlemen, who were be-
hind him completely, but luckily falling
on his face he crawled forward, and was in
time to receive, and the other girl, who
had sunk for the third time, was also saved
by him, about three feet being caught by
him, and being managed to reach
land. Bystanders with difficulty, and soon they
made their way to a house, where all need-
ing it received careful attention. The

girls, whose names we did not learn, re-
side in the Marchmont House. The con-
duct of Messrs. Ball and Ford was worthy
of all praise, they have performed a
dangerous feat in a highly courageous
manner.

TO CORRESPONDENTS—Our correspond-
ents will please conform to the rule of
writing on one side only of the paper,
otherwise we cannot undertake to print
their communications.

EMIGRANTS—Three cars of emigrants,
on Saturday, passed through here by
special train at 12:30 this morning. They
were English and Scotch, mostly the latter.
Fifty-three will remain in Ontario and
forty-one will proceed through to the
Western States. They report having had
splendid time from Liverpool.

STREET RAILWAY—Three or four loads
of rails for the Street Railway have arrived
at the Grand Trunk Railway Station, and
men are here ready to go on with the
work of laying them. The car sheds and stables
are located near the Grand Trunk Rail-
way. Work will be commenced at once
and pushed forward with energy.

Geo. Ritchie & Co.—This popular firm
has their spring opening this day, and cer-
tainly made a fine display, fully equal to
previous seasons. There are some in the
County and others in Town, who have
little idea of the extent of the business of
this house. They occupy the three stories
and the basement of their extensive pre-
mise, which are filled with all descriptions
of dry-goods. It is a mistake to suppose
that they deal wholly in the finer kinds of
goods. They deal largely in all, millin-
ery goods, &c., but keep also a heavy stock
of domestic goods, such as factory cottons,
tickings, carpets, &c., which they sell at a
very low figure. Their goods are always
new and fresh, which is a matter worth
noting, as the new goods are cheaper than
they have been for some time. We would
therefore recommend farmers, mechanics,
their wives, and the public generally, to
visit Geo. Ritchie & Co. before deciding
upon making their spring purchases.
Those in attendance are very obliging,
and willing to show goods without using
any undue influence to persuade customers to
buy.

Daily Intelligence.

THURSDAY, APRIL 13, 1876.

Town and Vicinity.

Police Court.—There was nothing in Court this morning.

Good Friday.—In accordance with our custom, no paper will be issued from this office to-morrow, Good Friday.

Investigation.—Evidence is being taken to-day in the investigation into the charges against the Fire Brigade.

High Water.—The water is now two feet higher in the harbor than it was last season, and it seems to be still rising.

Only One.—There was only one voluntary occupant of the cells last night, who passed the night alone in his glory, as there were no prisoners.

St. George's Society.—A regular monthly meeting of the St. George's Society will be held this evening, upon business of importance will be transacted.

New Cheese Factory.—Notice is given in the latest Ontario Gazette of the incorporation of the Springfield Cheese Manufacturing Company of Sidney.

The Roads.—The country roads, though generally very heavy as yet, are beginning to dry and improve a little, under the influence of sun and wind.

Fox.—A dense fog hung over the town for several hours this morning, the wetting of which was but little relief to the dull and a light shower of rain.

Orders.—The Front of Sidney Cheese Factory commenced its operations yesterday (Wednesday) morning. This factory is the oldest in the County, and claims to be the first to commence work this year.

County Council.—A special meeting of the County Council was appointed to be held on the 9th of May, but it is not probable that another special meeting will be convened before that date.

Obituary.—Mr. Samuel Shaw, hotel keeper, Shanawabtoo, a gentleman well known to travellers, died yesterday. The funeral will take place to-morrow at 3 o'clock, p. m., with Masonic honors.

Getting Ready.—Owners of vessels are beginning to do a little of their work necessary to prepare their craft for the coming season of navigation, which, with a continuance of mild weather, will open about a week.

Personal.—Senators Read and Platt, and Messrs. White and Brewster, have returned to their homes, the session of Parliament being now ended. Mr. Read has been unwell for some weeks, but is now in a much improved condition.

Sporting.—There is now a chance for our local sportsmen to distinguish themselves. Ducks have arrived in large numbers, and pigeons are reported more plentiful than usual. Immense flocks of these birds passed over Oswego, bound north, on Tuesday morning.

The Hay.—Chaffing is made by means of an iron-bell. One of the female passengers—a lady of large avoirdupois—was accidentally brought through the ice yesterday, and was rescued with great difficulty. The ice was so thin that she was unable to get up, and she was nearly drowned before she was rescued.

Water.—There is now a good deal of water, the extent of which is hourly extending.

The "Davieses".—Work on this fine yacht is proceeding rapidly. Her frame is being strengthened with additional timbers, which will go to stiffen the hull that she will be able to carry all the sail she is now without straining. This will improve the "Davieses" very much for racing purposes. The cost of the improvement will be about \$400.

Visit of the Bishop of Ontario.—His Lordship the Bishop of Ontario visited Belleville on Wednesday in connection with the difficulties in St. Thomas and other Churches. We are informed that after being waited upon by deputation and individuals, who laid the grievances of the congregations before him, the Bishop stated that he would give the matter his personal consideration and submit his judgment to the Church Wards in writing.

Manner of Thursday.—Today is what is known as Monday Thursday, the word "Monday" evidently being taken from mankind "to command." Very probably the name was drawn in the same manner as those of other days in Latin, and in the case of Monday, from the word "dominus," which signifies "lord," and "dies," which signifies "day." Whitwell Chapel.

At many poor men and women at the Whitwell Chapel in years of age receive portions of meat, dried fish and bread, also stockings, linen and gloves in silver patterns, lamp-glasses, thermopins, and confections in white kid purses.

Commissioners for North Hastings met at Stirling on Wednesday, 4th inst., and organized by appointing Thos. Eno, Esq., Chairman. They adjourned to meet again at Marlow Village, after the Inspector makes his report and after visiting taverns applying for licenses.

PINK AND WHITE TYRANNY.

BY

DARL HARRIET WICKER STOWE.

AUTHOR OF "MARRIAGE AND LOVE," "THE WIFE'S
TWO WOMEN," ETC., ETC.

CHAPTER XXIII

HARRY went straightway from the fa-

lter to call upon Lillian, and had

a conversation with her, in which he

conducted himself like a sober, discreet, and

rational man. It was one of those

daylight, matter-of-fact kind of talks, with

no nonsense about them, in which the

recalled by their right names. He com-

menced his own state, and took upon his own

shoulders the blame that properly belonged

there; and, having thus cleared his

conscience, took occasion to give Lillian a dose

of grandly advised, and seductive

advice.

They had both been very silly, he said;

and the next step to being silly very often

was to be wicked. For his part, he thought

he ought to be thankful for so good a hus-

band; but for his own part, he should

lose no time in trying to get a good wife,

who would help him in the aged and in-

firm, and who would do the work of a

man, and who would be a good and a

helpful wife. He had given people occasion to say

things about him, and he was very sorry for it.

But, if they stopped being im-

probable, the world would in time stop

making. He hoped, some of these days to

bring his wife down to see her, and to

make the acquaintance her husband, whom

he knew to be a capital fellow, and one that

she ought to be proud of.

Thus, by the intervention of good angels

the little paper-natured back of Lillian's

face was prevented from going down in

the great ugly mud, on the verge of

which, as he had so graciously said, he

was now standing. Harry was not slow in pushing the

advantage of his treaty of friendship with

Lillian to the utmost limit; and, being a

young gentleman of parts and proficiency,

he made rapid progress.

The interview of course immediately bred

the necessity for at least a dozen more; for

he had to explain this thing, and qualify

that, and on reflection, the next day, he

was obliged to go, after the first con-

ference was over, was troubled at her own

boldness, and at the things that she in her

state of excitement had said, and so was

only too glad to accept interviews and ex-

planations as often as sought, and, on the

whole, was in the most favorable state of

mind for his purpose.

Hence came many calls, and many con-

ferences with Rose in the library, to Mrs.

Van Anstran's great satisfaction, and

concerning which Mr. Van Anstran had

many unexpressed chuckles and knowing

winks.

Now, as, don't you say a word," said

Mrs. Van Anstran.

"Oh, no, Polly," said she, "I am a great

deal, with a joyful cheerfulness of my

heart."

"I don't say anything, oh, no, I say no

more of them."

Neither at present did Harry; neither do

we.

CHAPTER XXIV.

THE poet has feelingly sung the condition

of

"The banquet hall deserted,
And the lights are dim, and the guests are dead,"

and so we need not eat the daylight of

minute description on the Follies of man-

kind.

Charles Ferrie, however, was summoned

away at early daylight, just as the last

of condolence from his admirers, who were
aware of the latest indignity of his grief.
A lovely, young, called "My Mother's
Bliss," which seemed to be the name of
inspiration after, was the outburst of
of this expression, and the tears of
fashionable sympathy to the highest de-

reach here after a difficult passage through the ice on April 26th. The ship is freshly painted, clean and trim, and will run on the same route as last year, namely from Pictou to Trenton. Capt. Porter's little steamer was a great accommodation to the people along her line of route, last year, and we have no doubt will again be a large business, her arrivals and departures being being prompt, and her passengers are treated with courtesy and consideration by the popular captain of the ship.

Miss Minnie Fox, the great Dutch Violinist and Dancer, at the Grand Hotel, Tuesday evening, 26th April. 11

IN SEASON.—The fish in season during April are salmon, trout, and speckled trout and bass. The game in season are snipe, and ducks which do not breed in this Province.

THE ROYALTY.—Capt. Campbell, of the steamer *Rocky*, was in town this morning. He expects that the steamer under his command will make her first trip to-morrow, provided that the *Union*, on which this morning, found the bay clear from ice.

THEATRICAL.—The *Adela Gray* Combination had fair success on Saturday night. This evening the ever popular drama, "East Lynne," will be presented, and to-morrow evening, Mr. Lester will present "The Rose Michel," a new farce and New York sensation, which will be played on the first time in Canada. The *Adela Gray* is an excellent actor, and deserves a substantial benefit.

St. George's Day.—The turn-out of the St. George's Society yesterday afternoon was the largest which ever took place in town, there being fully four hundred people in the procession, which passed down Front Street from the Marble Hall to the Bridge Street Methodist Church, shortly before 3 o'clock, p. m. Rev. S. P. Rose, who was lately elected Chaplain to the Society, conducted the devotional exercises, and preached a most excellent sermon, which, thoroughly appropriate as it was to the occasion, must have gone home with force to the hearts of many who listened to it, including as it did, Christian charity on the broadest grounds. The church was well filled, the general public attending in large numbers, and the collection was in excess of any previously taken up on behalf of the Society. Prof. Whisk, himself a patriotic Englishman, presided at the organ, and the choir kindly gave their valuable services. We understand that although the public dinner will not be held, a few of the members of the Society will have a reunion at Hanley's to-night, in honor of the anniversary.

AN INTERNATIONAL RIFLE MATCH.—The engagement which we threw out as to getting up a match between the members of the 48th Rifle Club of this town, and the team of the 48th regiment of Oswego, seems likely to result in a match being made. Our neighbors, confident of their skill on the "ground," and authorized the following list of men, and mostly private, which is published in the *Oswego Palladium* of the 21st:—If the riflemen of Belleville wish to shoot against an O.s. regt team their wish can be gratified very easily. We are authorized to say that some from the 48th regiment will shoot a home and home match with a Belleville team, the first meeting to be held here. Will the *Intelligencer* take the matter in hand and put it to a referendum?

Our Canadian neighbors may communicate with General Sullivan or Colonel Haggin and receive such information as they seek. The match might be arranged so that the meeting in Belleville would be on the 29th of the month, giving Belleville the opportunity to draw heavily on the surrounding towns and country and put money in its purse. In accordance with the request of our contemporary, we sign this matter before officers of the 48th, this morning. They were pleased to accept of a match, and informed us that the match in the matter will be taken at the meeting of the 48th Rifle Club to-morrow night. This meeting, which is also for the election of officers, will be held at Hanley's at 8 o'clock, p. m.

A DEPRIVATE RUSSIAN.—The negro *Levin*, who was sent for trial to-day on a charge of stealing a value from the Pullman car on Saturday's midnight train on the Grand Trunk, is a hardened and desperate ruffian. He was, previous to coming here, for six months, in a razor-fight with a fellow named *Levin*, for robbery. Here, he stole a hat and a razor from a hotel and got two months in gaol, which time expired on Saturday. On that day he got drunk, and assaulted an Indian, whom he hurt severely by striking him with a large stone. Then at midnight he made his way to the station and carried off a match from the Pullman car, thus showing that he was determined to lead a life of crime. On his way from the station with the stolen goods he was pursued by Sergeant Snider, who rightly suspected that the match was not honestly come by. The robber fought too fast of foot for the sergeant, however, and after lying prone for some time, he fled to Shamshoole, where he entered a car and hid himself, but was caught, as detailed in our police report this morning. The sequel of his story is yet to come, but it is safe to say that he will not be a pleasant one for Mr. Nathaniel London.

POLICE COURT.

(Before A. Diamond, P. M.)

MONDAY, April 24.

Nathaniel London, a negro who was a short time ago convicted of stealing a hat and a razor from a hotel in Montreal, was charged with stealing a value, the property of W. N. Kinney, a resident of this town, from the County Temple under in Bridgewater.

On view of the evidence—Navigation—Navigation on the Bay of Quinte opens two days earlier this year than it did last season. The first steamer—the *Union*, from Trenton arrived shortly before 8 o'clock yesterday, April 26th, where she was met by the *Union*, which had the honor of being the first arrival in our harbor last year, was able to

MORNING DESPATCHES. AUCTION SALE

AMERICAN.

ARREST OF SUPPOSED MURDERERS

THUNDER ON INDIAN RESERVE.

NEW YORK RING TRIALS.

TO-MORROW'S CELEBRATION.—The brethren of District No. 3, I. O. O. F., will unite to-morrow in celebration of the 75th anniversary of their Order. The programme, which will be found in full in our advertising columns, comprises in brief a procession to church in the afternoon, where Rev. Bro. Nills will preach; a lecture in the P. M. Hall by Bro. J. H. Perry of Whitby; P. O. G., together with readings and recitations; and following this a supper at the Dominion House. This arrangement is varied and comprehensive, and will suit all tastes, therefore it ought to be well patronized, and will be held in a manner satisfactory to the Brethren and their guests.

TOWN COUNCIL.—The object for which the Town Council met last night, namely the extension of time for the award of the contractors in the Rathburn lease, having been frustrated by the action of Messrs. Henderson and Pringle, who withdrew from the chamber, thereby breaking up the quorum, another special meeting was called for this afternoon. Such tactics as were resorted to were certainly far from creditable to the Council members. The time limited for the making of the award under the lease expires to-morrow, and unless one side or the other of the Messrs. Rathburn had been presented to the arbitrator, it would be impossible to get in any evidence on behalf of the Town, unless the time be extended. Failing action by the Council, the whole matter will be thrown into the hands of the umpire as it stands, with Messrs. Rathburn's claim proved to the extent of some \$12,000. It is needless to point out how prejudicially this would affect the Town's position in the matter, as the umpire could of course be called upon to decide only on what had been proved in evidence before the arbitrators. The people will not be surprised at the action of Mr. Henderson, but that Mr. Pringle should have followed his example is inexplicable. In justice to Messrs. Rathburn and the arbitrator, John Bell, Esq., it is proper to say that they do not intend to the time for making the award being extended, though the closing of the case now would be largely to their advantage, as the Town would be precluded from putting in any testimony in rebuttal. What do these two Councilmen mean by breaking up the quorum under such circumstances? Surely they cannot desire to see the Town mulct in \$15,000 or \$20,000 damages, which might be materially reduced if time were given to hear all the evidence. It is about time the tax payers began to reflect upon the result of such actions on the part of their Councilmen.

Licenses in West Hastings.—The License Commissioners for West Hastings met on the 24th inst. to consider the applications for tavern and shop licenses, made to the Inspector. After careful consideration, they decided that the following applications should be granted:

By-law.—The Council have passed the following resolution: "That the License Commissioners have issued the full number of tavern licenses to which the Town was entitled on the basis of the census of 1871."

Shop Licenses.—Hawley & Davies, Geo. Wallbridge, Wesley Lumsden, W. Y. Mikel, E. D. Brooks, Jas. Stevenson, W. R. McKee & Co., 7.

HISTORICAL ITEMS.

Before the establishment of the telegraph

and steamship lines, the only rapid means

of communication was by the mail.

First part of the following history. Now

highly interesting, the mail in Japan

in March are landed in New York early in

June, and in July the mail is supplied

with them.

Daily Intelligencer.

FRIDAY, APRIL 28, 1876.

Town and Vicinity.

THE CELLS—Only three transients lodged in the cells last night.

PRISON COUNT—There were no cases for trial this morning, and there being no prisoners in custody, the record was blank.

PROCEEDINGS—The arbitration in the matter of the Rathbun lease proceeded steadily, and will doubtless be completed within the time set for that purpose, as ex-
tended by the Council.

THE BREWERS—The License Inspectors have received instructions to demand from all brewers the sum \$150 each, as License, and to enforce payment thereof. The Brewers either have received notice of this effect or will in a few days.

DEGREE CONFERENCES—Amongst those who received degrees at the Commencement of Queen's University, Kingston, on the 27th inst., was John McE. Youre, of Belleville, upon whom was conferred the degree of M. D.

FACTORIES, &c.—It will be seen by an advertisement in to-day's issue, that Mr. Wilkins will in a few days receive a large quantity of Fruit and other Trees, which he will sell by auction. This will present a good opportunity to those who desire to plant this spring.

SEWAGE—A gentleman who lately visited Toronto informs us that the old yacht *Rattlesnake* sunk at her moorings in that city. Though out of date as a racer, the *Rattlesnake* was safe and comfortable, and we hope she will soon be raised and put in commission again.

RAILS—There were a number of heavy showers of rain last night and to-day. The temperature being high, the rain was warm, and will prove of great benefit to pastures, in bringing forward a good crop of grain. Fall wheat, rye and clover will also benefit very much.

LADS—The dust, which was so troublesome yesterday, among us longer, and the rain having laid it most effectively for the time being. In its place, however, there is plenty of mud, and the Street Committee ought to take the opportunity offered to have Fresh Street thoroughly scraped.

GRANDS OF BARK—It will be seen by advertisement that Mr. Chas. Irwin, whose announcement of the purchase of Mr. A. Robertson's stock of goods appeared in our columns a few days since, has just returned from Montreal with a large stock of goods, which he is now opening out to show his customers. Mr. Irwin says there is "no depression here," and he evidently means that so far as he and his business is concerned, that the times will be good.

KILLED BY A FALLING TREE—The *Peterborough Examiner* says: "We regret to learn that Timothy Croagh, of Enniskillen, was killed while chopping in the woods on Monday. He was chopping down a large tree or three of them lodged on another dry cedar. He succeeded in getting the lodged tree cut down, when the other pole, relieved from the weight of the broken tree, fell in the spring, a portion of it broke off and struck him on the head, causing an injury which he died in about an hour, never speaking after the accident. He was about 30 years of age, and leaves a wife but no children."

THE MEETING TO-MORROW—The public meeting called to consider the proposition to complete the Grand Junction Railway, on the condition that further assistance be given by this municipality, will be held in the Town Hall to-morrow. In our advertisement columns will be found a summary of the reasons for and against the railway, and a statement of the expenditure upon the road so far, and doubtless further explanations as to other matters in connection with the affairs of the Company will be forthcoming. It is to be hoped that there will be a large attendance of rate-payers, and that the public, which is of great public importance, will be thoroughly discussed and decided action taken in the matter.

REMARKS OF DR. MACLEOD—A correspondent writes: "We have just arrived at a point in the history of our Dominion when we can breathe freely, and look back before all remembrances are forgotten, up on those pioneers, who up the rocky ridges and the steep, across the torments of the bridge, and gave to this forest frown that we might enter in and take possession. Among the memories of days past, we had the appearance of a biography of this Dr. Macleod, who in 1841, in 1842, 1843, 1844, 1845, 1846, 1847, 1848, 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856, Extirpate the Moths.

Early in the spring of the year small moths may be seen flying about the dwelling-places. Some are of a light silvery color, and others of a brownish color.

Let these be caught and crushed, and you will not be troubled with them again.

The moths lay eggs in your fire and in your clothing. These eggs hatch, and larvae of the moths are produced.

These little grubs are the pests which do the mischief. When you find a larva, it is usually very small, and very white, with a black head.

After these eggs are laid, they are usually laid in the form of a ball, and are usually laid in the form of a ball.
